Organic Agricultural Products: Marketing and Trade Resources Series

This research guide is one of seven in a series. Each guide is a subject-oriented compilation that focuses on a separate type of information or research source. Sources cited in each guide were selected based on their applicability to U.S. organic production and enterprises; ready availability, especially those that are free and online; and timeliness - most sources were created or updated within the past five years. **This series updates and replaces AFSIC's *Organic Agricultural Products: Marketing and Trade Resources* (2005), Special Reference Brief Series no. 2003-01.**

AFSIC guides are not intended as definitive guides to Federal regulations and rules or to developing a fail-proof business or marketing plan. They will, however, lead the researcher to primary resources and agencies that impact organic marketing, import or export enterprises. Research beyond cited sources, for any marketing or trade project, is highly recommended. Although every effort has been made to provide the most current and correct information available, the author and the National Agricultural Library assume no liability for the accuracy or completeness of the information resources presented.

Titles in this series are:

1. ***Guide to U.S. Organic Marketing: Laws and Regulations***

U.S. Federal laws and regulations; state laws and regulations pertinent to marketing organic products; other organic-related certification programs; selected background documents about U.S. standards; general Federal food-related labeling and regulatory programs and information; general state food-related labeling and regulatory programs and information; related food safety resources

2. ***Guide to International Trade in Organics: Laws and Regulations***

Exporting and importing organic products - U.S. regulations and information sources; selected international organic-specific law and policy sites; general U.S. export and import regulations, certifications and information; selected international general food law and policy sites

3. ***Guide to Organic Marketing and Trade How-to Publications***

Organic-specific marketing publications; related alternative farm marketing publications; publications about international trade; selected business guides and enterprise budgets

4. ***Guide to Organic Marketing and Trade Research Tools Online***

Internet portals, cyberguides and news services; business directories and commodity trading sites; organic price indexes; literature guides: catalogs, bibliographies and bibliographic databases

5. ***Guide to Organic Marketing and Trade Periodicals, Calendars and Trade Shows***

Trade and marketing magazines and e-zines; market research journals; selected events calendars and organic food trade shows

6. ***Guide to Organic Market, Industry and Consumer Studies* (2004-2008)**

Bibliography of publications with links to abstracts or full text

7. ***Guide to Organic Marketing Support Organizations***

Selected national support groups and resources; where and how to find additional support

These guides are available online at <http://www.nal.usda.gov/afsic/pubs/pubsindex.shtml>

Guide to U.S. Organic Marketing: Laws and Regulations

Federal Laws and Regulations

The United States Department of Agriculture (USDA) has put in place a set of national standards that food labeled “organic” must meet – whether it is grown in the United States or imported from other countries. U.S. regulations were fully implemented on October 21, 2002, and are administered by the National Organic Program (NOP) within USDA’s Agricultural Marketing Service (AMS). On February 4, 2008 AMS announced a reorganization of the NOP office into three branches: Accreditation, Auditing and Training Branch; Standards Development and Review Branch; and Compliance and Enforcement Branch. See: AMS Press Release, <http://www.ams.usda.gov/nop/Newsroom/NOPReorgStatement020408.pdf> (accessed 2/15/08)

This section highlights information about/links to selected NOP resources and to other significant Federal and industry entities with roles in regulating organics. Also included: links to texts of pertinent Federal legislation and information about current Congressional committees and caucuses.

1. National Organic Program (NOP).

Contact: Associate Deputy Administrator, USDA-AMS-TMP-NOP, Room 4008 - South Building, 1400 Independence Avenue, SW, Washington DC 20250-0020; 202-720-3252; fax 202-205-7808.

Homepage: <http://www.ams.usda.gov/nop/> (accessed 10/17/07)

Description: The Organic Foods Production Act (OFPA) of 1990 required the U.S. Department of Agriculture (USDA) to develop and maintain national standards for organically produced agricultural products to assure consumers that agricultural products marketed as organic meet consistent, uniform standards. The OFPA and the National Organic Program (NOP) regulations require that agricultural products labeled as organic originate from farms or handling operations certified by a State or private entity that has been accredited by USDA.

2. National Organic Program Regulatory Text.

- Text with Preambles from NOP: <http://www.ams.usda.gov/nop/NOP/standards.html> (accessed 8/21/07) (This site includes French, Japanese and Spanish translations of the text)

- Text from the *Electronic Code of Federal Regulations* (as of August 17, 2007):

<http://ecfr.gpoaccess.gov/cgi/t/text/text-idx?c=ecfr;sid=11fd57b422b6314d866dc4b02f1a101d;rgn=div5;view=text;node=7:3.1.1.9.30;idno=7;cc=ecfr> (8/21/07)

- Text from *Federal Register* (December 21, 2000), Volume 65, Number 246 pp. 80547-80684:

http://www.access.gpo.gov/su_docs/fedreg/a001221c.html (Go to “Agricultural Marketing Services”) (accessed 10/17/07)

Description: CFR Title 7, Chapter I, *Agricultural Marketing Service (Standards, Inspections, Marketing Practices)*, Department of Agriculture, Part 205 (as authorized under the Organic Foods Production Act of 1990, as amended).

3. Producers, Handlers, Processors and Retailers.

URL: <http://www.ams.usda.gov/nop/ProdHandlers/ProdHandhome.html> (accessed 10/17/07)

Description: Includes fact sheets: *Labeling and Marketing; Production and Handling; How Retail Food Establishments Can Comply with National Organic Program Regulations; Labeling Alcoholic Beverage Containers; Labeling Packaged Products* and more.4. **Questions and Answers.**

URL: <http://www.ams.usda.gov/nop/Q&A.html> (accessed 10/17/07)

Description: Questions and answers categorized by subject matter and updated on a monthly basis.

(National Organic Program (NOP) continued)

5. Accredited Certifying Agents.

URL: <http://www.ams.usda.gov/nop/CertifyingAgents/CertAgenthome.html> (accessed 10/17/07)

Description: Directories of *Domestic Accredited Certifying Agents* (including State Departments of Agriculture); and *Foreign Accredited Certifying Agents*. Also includes information about *Policies, Procedures and Reference Documents; Appeals Process; Compliance and Enforcement; a Certifier Accreditation Fact Sheet*; and an *Application for Accreditation*.

6. National List Information.

URL: <http://www.ams.usda.gov/nop/NationalList/ListHome.html> (accessed 10/17/07)

Description: “The Organic Foods Production Act of 1990 requires the Secretary of Agriculture to establish a National List of Allowed and Prohibited Substances which identifies synthetic substances that may be used, and the nonsynthetic substances that cannot be used, in organic production and handling operations.” [Web site] Includes *The National List in the Final Rule* (as amended 11/03/03); *Proposed Amendments; Filing a Petition* fact sheet; *Petitioned Substances Database* (updated October 4, 2007); *Database on National Organic Standards Board (NOSB) Recommendations for Materials Considered for Use in Organic Agricultural Production and Handling*; and links to various *Federal Register* notices through 2007.

7. Policy Statements.

URL: <http://www.ams.usda.gov/nop/NOP/PolicyStatements.htm> (accessed 10/17/07)

Description: USDA response to NOSB feedback on issue statements: fishmeal, inerts, antibiotics, and scope of authority; certification of non-NOP agricultural products; letters; origin of livestock guidance; apiculture, greenhouse, and mushroom products; access to the outdoors for livestock; and conflict of interest. “Information previously found under ‘Policy Statements’ that is not listed on this page, can now be accessed in the ‘Questions and Answers’ section of the NOP web site.” [Web site]

8. Today’s News.

URL: <http://www.ams.usda.gov/nop/TodaysNews.html> (accessed 10/17/07)

Description: Lists updates to the NOP and NOSB sites within the most recent four month period. Updates posted more than four months ago can be found in the NOP *Today’s News* Archive.

9. Cost Share Program.

URL: <http://www.ams.usda.gov/nop/StatePrograms/CostShare.html> (accessed 10/17/07)

Description: Funds are available under this program to help defray the cost of organic certification by organic crop and livestock producers in 15 states.

10. *Johanns Offers \$1 Million to Defray Costs of Organic Certification for Producers in 15 States.* (Release, 0226.07), 2007.

URL:

http://www.usda.gov/wps/portal/!ut/p/_s.7_0_A/7_0_1OB?contentidonly=true&contentid=2007/08/0226.xml (accessed 10/17/07)

Description: USDA news release, Aug. 29, 2007.

11. *Organic Exemption: Exemption of Organic Handlers from Assessments for Market Promotion Activities Under Marketing Order Programs.*

URL: <http://www.ams.usda.gov/fv/mocommodities/marketingorderorganicexemption.htm> (accessed 10/17/07)

Description: The 2002 Farm Bill directed USDA to issue regulations exempting any person who produces and markets solely 100 percent organic products from paying assessments under a

(National Organic Program (NOP) continued)

commodity promotion law. Effective date: February 14, 2005. Includes a downloadable *Application for Exemption* and AMS contact information.

12. *Court Finds in Favor of USDA in Organic Case.*

June 9, 2005. 4p.

URL: <http://www.ams.usda.gov/nop/Newsroom/HarveyDecisionStatement&QAs.html> (accessed 10/17/07)

Description: “On November 2, 2006, the United States District Court, District of Maine, granted USDA’s ‘motion for relief from judgment’ in response to a second lawsuit brought against the Department by Arthur Harvey.” Site includes “Questions and Answers” and link to full text of entire decision.

13. *Memorandum to All USDA Accredited Certifying Agents: Certification of Agricultural Products That Meet NOP Standards.*

August 23, 2005.

Full text: http://www.ams.usda.gov/nop/NOP/PolicyStatements/NOPPolicyMemo08_23_05.pdf (accessed 10/17/07)

Description: “There are agricultural products, including personal care products, that, by virtue of their organic agricultural product content, may meet the NOP standards and be labeled as ‘100 percent organic,’ ‘organic’ or ‘made with organic’ pursuant to the NOP regulations. Businesses that manufacture and distribute such products may be certified under the NOP, and such products may be labeled as ‘100 percent organic,’ ‘organic’ or ‘made with organic’ so long as they meet NOP requirements. Additionally, products that may be labeled ‘100 percent organic’ or ‘organic’ may also carry the USDA organic seal. If additional rulemaking is required for such products to address additional labeling issues or the use of synthetics in such products, the NOP will pursue such rulemaking as expeditiously as possible.” [Excerpt from Memo]

14. *American National Standards Institute (ANSI) Peer Evaluation Report and NOP Response.*
2005.

Full text (2 documents): <http://www.ams.usda.gov/nop/CertifyingAgents/ANSIReportInfo.html> (accessed 10/17/07)

Description: “The American National Standards Institute (ANSI), a private, non-profit organization (501(c)3) that administers and coordinates the U.S. voluntary standardization and conformity assessment system, and who serves as the U.S. member of ISO and IEC, was contracted by USDA to conduct a peer evaluation of the NOP accreditation system.” [Excerpt from Executive Summary]

15. *National Organic Program, Sunset Review (Federal Register Notice).*

October 16, 2007

URL: <http://www.ams.usda.gov/nop/Newsroom/FedRegSunsetReview10-16-07.pdf> (accessed 10/17/07)

Description: “This rule amends the U.S. Department of Agriculture’s (USDA) National List of Allowed and Prohibited Substances (National List) regulations to reflect recommendations submitted to the Secretary of Agriculture (Secretary) by the National Organic Standards Board (NOSB) from November 17, 2005 through October 19, 2006. The amendments addressed in this final rule pertain to the continued exemption (use) and prohibition of 168 substances in organic production and handling. Consistent with the recommendations from the NOSB, this final rule renews 165 exemptions and prohibitions on the National List (along with any restrictive annotations) and removes 3 exemptions from the National List.” [Summary] This rule is effective October 21, 2007.

(National Organic Program (NOP) continued)

16. USDA Publishes Amendments to List of Substances Used in Organic Handling.

USDA, Agricultural Marketing Service (AMS), June 22, 2007 (AMS News, 133-07).

Full text: <http://www.ams.usda.gov/news/133-07.htm> (accessed 10/20/07)

Description: USDA “will publish an interim final rule that will amend USDA’s National List of Allowed and Prohibited Substances (National List) to include 38 minor ingredients recommended by the National Organic Standards Board (NOSB) during meetings in May 2002 and March 2007. The interim final rule, which is effective as of June 21, 2007, will also provide a 60-day period for additional comment on the amendments.” [Excerpt]

17. NOP and NOSB Collaboration on Grower Group Certifications, by Barbara Robinson.

May, 2007.

Full text: <http://www.ams.usda.gov/NOP/GrowerGroupsLetter.html> (accessed 10/24/07)

Description: Letter to all USDA certifying agents addressing enforcement action and future rule-making by NOP related to grower group certification.

18. National Organic Standards Board (NOSB).

Homepage: <http://www.ams.usda.gov/nosb/> (accessed 10/17/07)

Description: “The Organic Foods Production Act of 1990, part of the 1990 Farm Bill, authorized the Secretary of Agriculture to appoint a 15-member National Organic Standards Board (NOSB). The board’s main mission is to assist the Secretary in developing standards for substances to be used in organic production. The NOSB also advises the Secretary on other aspects of implementing the national organic program.” [Web site] Recommendations made by the NOSB are not official policy until they are approved and adopted by USDA. Includes member contact directory, meeting schedule, meeting and conference call archives, NOSB recommendations, and Aquatic Animals Task Force information.

19. Cloning Recommendation, by National Organic Standards Board Livestock Committee.

USDA, National Organic Standards Board (NOSB), February 20, 2007. 3p.

Full Text:

http://www.ams.usda.gov/nosb/CommitteeRecommendations/March_07_Meeting/Livestock/CloningRec.pdf (accessed 10/20/07)

Description: “Conclusion: To strengthen and clarify the existing rules, the NOSB Livestock Committee recommends that the NOP amend the regulations to add animal cloning technology to the definition of “Excluded Methods” and that the NOP update other sections of the rule to ensure that animal cloning technology is excluded, and that products derived from organisms subjected to such technology be excluded from organic production.” [Web site]

20. Organic Aquaculture Symposium.

URL:

http://www.ams.usda.gov/nosb/MeetingAgendas/Nov2007/OrganicAquacultureSymposium/11_07OrgAquaSymposiumPanelists.html (accessed 10/17/07)

Description: Full text of panel member presentations on fish feed and fish meal and open cage net pens; and of poster sessions on consumer and market issues. Symposium presented by National Organic Standards Board (NOSB) Aquaculture Working Group, Nov. 27, 2007.

21. Organic Foods Production Act of 1990 (OFPA).

United States Code. 21p.

Full text as posted by Senate Committee on Agriculture, Nutrition and Forestry:

<http://agriculture.senate.gov/Legislation/Compilations/AgMisc/OGFP90.pdf> (accessed 10/17/07)

Description: Title XXI of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101 624), as Amended through Public Law 109-97, Nov. 10, 2005.

22. National Organic Program.

National Agricultural Law Center, University of Arkansas School of Law (Reading Room).

URL: <http://www.nationalaglawcenter.org/readingrooms/organicprogram/> (accessed 10/17/07)

Description: Site provides information about and links to NOP overview, major statutes, regulations, case law, administrative law decisions, reference resources and center research publications.

23. Organic Materials Review Institute (OMRI).

Homepage: <http://www.omri.org/> (accessed 10/17/07)

Description: “OMRI provides organic certifiers, growers, manufacturers, and suppliers an independent review of products intended for use in certified organic production, handling, and processing. OMRI reviews applying products against the National Organic Standards. Acceptable products are OMRI Listed® and appear on the OMRI Products List. OMRI also provides subscribers guidance on the acceptability of various material inputs in general under the National Organic Program.” [Web site]

24. Environmental Protection Agency (EPA): Agriculture.

Homepage: <http://www.epa.gov/agriculture/index.html> (accessed 10/30/07)

Description: EPA topics include: agribusiness, food safety, biopesticides and organic farming.

25. Agriculture: Organic Farming.

URL: <http://www.epa.gov/agriculture/torg.html> (accessed 10/30/07)

Description: Links to background documents on organic production as well as “Guidance for Labeling Pesticides Under the National Organic Program.” See *Pesticide Registration (PR) Notice 2003-1, Notice to Manufacturers, Formulators, Producers, and Registrants of Pesticide Products: Labeling of Pesticide Products under the National Organic Program*, http://www.epa.gov/opppmsd1/PR_Notices/pr2003-1.pdf (accessed 10/30/07).

26. Labeling of Pesticide Products Under the National Organic Program.

Environmental Protection Agency (EPA).

URL: <http://www.epa.gov/opppmsd1/biopesticides/regtools/organic-pr-notice.htm> (accessed 10/17/07)

Description: Pesticide Registration (PR) Notice 2003-1. *Notice to Manufacturers, Formulators, Producers and Registrants of Pesticide Products*. “This notice describes how registrants can obtain Environmental Protection Agency (EPA) approval of label language indicating that all ingredients (active and inert) in a pesticide product and all uses of that pesticide meet the criteria defined in the United States Department of Agriculture’s (USDA) National Organic Program (NOP) Rule.” [Web site]

27. Alcohol Beverages Labeled with Organic Claims.

U.S. Department of the Treasury Alcohol and Tobacco Tax and Trade Bureau (TTB).

URL: http://www.ttb.gov/alfd/alfd_organic.shtml (accessed 10/17/07)

Description: U.S. Department of Agriculture provide “standards for the production, handling, processing, labeling and marketing of products labeled with organic claims. While these rules were not written or implemented by the Alcohol and Tobacco Tax and Trade Bureau (TTB), they do apply to alcohol beverages. For this reason, TTB has worked closely with the USDA to ensure that the alcohol beverage industry has been provided with current and accurate information regarding organic claims on labels. This web site and the resources catalogued within are designed to provide you with the most up-to-date information on organic claims on alcohol beverage labels.” [Web site]

28. Frequently Asked Questions - Organic Alcohol.

URL: <http://www.ttb.gov/faqs/alforganic.shtml> (accessed 10/17/07)

29. *Basic Provisions, Federal Crop Insurance Reform, Insurance Implementation, Regulations for the 1999 and Subsequent Reinsurance Years; Group Risk Plan of Insurance Regulations for the 2001 and Succeeding Crop Years; and the Common Crop Insurance Regulations - Final Rule.*

USDA, Risk Management Agency (RMA). *Note: Federal Register*, June 25, 2003, as posted by USDA RMA.

Full text: <http://www.rma.usda.gov/regs/2003/03basicprovisions.pdf> (accessed 10/17/07)

Description: “The Agricultural Risk Protection Act of 2000 (ARPA) provides that organic farming practices be recognized as good farming practices. Prior to this ruling, crop insurance policies may not have covered production losses when organic insect, disease, and/or weed control measures were used and such measures were not effective.” [Web site]

30. *Organic Farming Practices: 2007 Insurance Fact Sheet.*

(Organic Farming Practices/Program Aid Number 1912), December 2006.

Full text: <http://www.rma.usda.gov/pubs/2006/organics.pdf> (accessed 10/17/07)

31. *Congressional Caucus on Organic Agriculture.*

Note: Information posted by Organic Farming Research Foundation (OFRF).

URL: http://ofrf.org/policy/organic_caucus/organic_caucus.html (accessed 10/17/07)

Description: “The Organic Caucus is a bipartisan association of congressional members dedicated to enhancing the availability and understanding of information related to the production and processing of organic agricultural products. The caucus shall serve the public interest through the promotion of sound policies that advance organic production and marketing.” [Mission statement] Information, meeting agendas and current membership included on the site.

32. *House Committee on Agriculture, Subcommittee on Horticulture and Organic Agriculture.*

URL: <http://agriculture.house.gov/inside/subcomms.html> (accessed 10/17/07)

Description: House of Representatives, U.S. Congress (110th). Dennis A. Cardoza, (D-CA) Chairman. Jurisdiction: fruits and vegetables; honey and bees; marketing and promotion orders; plant pesticides, quarantine, adulteration of seeds, and insect pests; and organic agriculture. Page includes list of current members.

State Laws and Regulations Pertinent to Marketing Organic Products

Many states have legislation, regulations and/or a USDA-accredited organic certification programs that organic producers, handlers, processors and retailers should be aware of.

33. *Environmental Laws Affecting State Agriculture.*

National Association of State Departments of Agriculture Research Foundation.

URL: <http://www.nasda-hq.org/nasda/nasda/Foundation/state/states.htm> (accessed 10/24/07)

34. *State Marketing Profiles.*

USDA, Agricultural Marketing Service (AMS).

URL: <http://www.ams.usda.gov/statesummaries/> (accessed 10/24/07)

Description: Information about accredited state organic agriculture certifiers and programs is included with each state profile.

35. *Accredited State Departments of Agriculture.*

USDA, Agricultural Marketing Service (AMS), National Organic Program (NOP), 2006.

URL: <http://www.ams.usda.gov/nop/CertifyingAgents/StatesAccredited.html> (accessed 11/27/07)

Description: Fourteen State Departments of Agriculture have been accredited as certifying agents.

36. **State Contacts.**

USDA, National Organic Program (NOP), 2007.

Full text: <http://www.ams.usda.gov/nop/StatePrograms/StateContacts.html> (accessed 10/24/07)

37. **“Summaries of State Organic Laws/States without Organic Laws,”**

In *National Organic Directory*, pp. 145-161. Community Alliance with Family Farmers, 2001. *Note:* This publication is no longer in print.

Other Organic-related Certification Programs

There are a growing number of organizations offering eco-labels and/or product certification for agricultural products. Many are related to organic standards but offer producers and consumers product-specific or alternative marketing options. This list is meant to be representative of such programs and not comprehensive in scope.

38. **Greener Choices: Eco-Label Center.**

Consumers Union, 2005.

Homepage: <http://www.greenerchoices.org/eco-labels/eco-home.cfm> (accessed 10/31/07)

Description: “Learn more about products that are eco-labeled compared to those that are conventionally farmed or produced and compare labels quickly with a shorthand report card.” [Web site] Includes product and label indexes categorized as “Organic, Sustainable Agriculture,” “Animal Welfare,” “Pest Management,” “No Genetic Engineering,” “Environmental Persistence,” and “Social Responsibility.”

39. **American Grassfed Association.**

Homepage: <http://www.americangrassfed.org/> (accessed 10/31/07)

Description: “The American Grassfed Association (AGA) family of logos and design marks were developed by the American Grassfed Association and trademarked to identify food and agriculture products, which meet the standards as set forth in the AGA Grassfed Ruminant Standards and certified through a program approved by the AGA.” [Web site]

40. **American Organic Standards.**

Organic Trade Association (OTA).

URL: <http://www.ota.com/standards/aos/index.html> (accessed 10/31/07)

Description: Adopted by OTA in October 1999, AOS is a “detailed document that compiles and codifies industry practices as they currently are understood and applied. OTA took this action to provide a unified voice to establish standards that will protect the integrity of organic agriculture. OTA intends to use these standards to work toward better harmonization of international standards.” [Web site]

41. **Cert ID Non GMO Standard.**

Cert ID LC.

Contact: Cert ID LC, PO Box 1810, Fairfield IA 52556-0031; 877-384-6193 (toll-free in U.S./Canada) or 641-472-9979; e-mail info-na@cert-id.com

Homepage: <http://www.cert-id.com/> (accessed 10/30/07)

Description: “CERT ID is a global company active in providing third-party certification programs to growers, agricultural processors, food ingredient producers, food and feed manufacturers, animal producers and food retailers.” [Web site] Provides standards for CERT ID® EU Regulatory Compliance Standard and CERT ID® Non GMO Standard.

42. *Certified Humane Raised and Handled.*

Humane Farm Animal Care.

Contact: Humane Farm Animal Care, PO Box 727, Herndon VA 20172; 703-435-3883; e-mail info@certifiedhumane.org

Homepage: <http://www.certifiedhumane.com/> (accessed 11/31/07)

Description: “Humane Farm Animal Care is a non-profit organization whose mission is to improve the lives of farm animals by providing viable, credible, duly monitored standards for human food production and ensuring consumers that certified products need these standards.” [Web site]

43. *Certified Naturally Grown.*

Certified Naturally Grown.

Contact: Certified Naturally Grown, PO Box 156, Stone Ridge NY 12484; 877-211-0308; e-mail info@naturallygrown.org

Homepage: <http://www.naturallygrown.org/> (accessed 10/31/07)

Description: “Certified Naturally Grown is a Grassroots Alternative to the USDA’s National Organic Program meant primarily for small farmers distributing through local channels - Farmer’s Markets, roadside stands, local restaurants, Community Supported Agriculture Programs and small local grocery stores - the farmer’s that make up your local landscape!” [Press summary and information]

44. *Davis Fresh Pro-Safe Certification Program.*

Davis FreshTech.

Contact: Davis FreshTech, 8 Seascape Village, Aptos CA 95003; 831-688-8900; e-mail solutions@nsfdavisfresh.org

Homepage: <http://www.davisfreshtech.com/> (accessed 10/31/07)

Description: Provides food safety audits and consulting for the perishable food industry.

45. *Demeter Certified Biodynamic®.*

Demeter Association, Inc.

Contact: Demeter Association, Inc., PO Box 1390, Philomath OR 97370 USA; 541-929-7148.

Homepage: <http://www.demeter-usa.org/> (accessed 10/31/07)

Description: “For the Certification of Biodynamic Agriculture.” See also Demeter International, <http://www.demeter.net> (accessed 10/31/07).

46. *Fair Trade Certified.*

TransFair USA.

Contact: TransFair USA, 1500 Broadway, Suite 400, Oakland CA 94612; 510-663-5260; e-mail info@transfairusa.org

Homepage: <http://www.transfairusa.org/> (accessed 10/31/07)

Description: “TransFair USA’s mission is to build a more equitable and sustainable model of international trade that benefits producers, consumers, industry and the earth. We achieve our mission by certifying and promoting Fair Trade products.” [Web site]

47. *Farmer’s Pledge.*

Northeast Organic Farming Association of New York (NOFA-NY).

Homepage: <http://nofany.org/farmerspledge.htm> (accessed 10/31/07)

Description: “To further enable consumers to identify the farms they want to support with their food dollars, NOFA-NY has established a Farmer’s Pledge, separate and distinct from USDA Certified Organic... This pledge is based on the integrity of the farmer/gardener.” [Web site]

48. Food Alliance Certified.

The Food Alliance (TFA).

Homepage: <http://www.foodalliance.org/> (accessed 10/31/07)

Description: “Food Alliance certified farmers meet strict standards in the areas of pesticide reduction, soil and water conservation, wildlife habitat conservation and safe and fair working conditions.” [Web site]

Programs: Farm and Ranch Certification Program, and Handlers Certification Program

49. Global Organic Textile Standard (GOTS).

International Working Group on Global Organic Textile Standard, 2006.

Homepage: <http://www.global-standard.org/> (accessed 10/31/07)

Description: “The aim of the standard is to define requirements to ensure organic status of textiles, from harvesting of the raw materials, through environmentally and socially responsible manufacturing up to labelling in order to provide a credible assurance to the end consumer.” Developed in cooperation with Organic Trade Association (OTA) and other organizations in the U.S. and Europe.

50. International Organization for Standardization (ISO).

Homepage: <http://www.iso.ch/iso/en/> (accessed 10/31/07)

Description: “ISO has developed over 16500 International Standards on a variety of subjects and 1250 new ISO standards are published every year.” In addition to standards for basic business practices, ISO current standards include those for: food management systems; traceability in the feed and food chain; foodstuffs - methods of analysis for the detection of genetically modified organisms and derived products; guidelines on the application of ISO 9001:2000 for the food and drink industry; and many related to environmental qualities. See also *Audit, Review and Compliance Branch, Auditing Services*, U.S.

Department of Agriculture, Agricultural Marketing Service (AMS) in this listing.

53. IPM Product and Service Recognition Programs and Information.

IPM Institute of North America, Inc.

URL: <http://www.ipminstitute.org/links.htm> (accessed 11/27/07)

Description: Descriptions and links for organizations providing eco-labeling options and related programs related to IPM (Integrated Pest Management) practices. See also the Institute’s *Bibliography of IPM Certification, Labeling and Marketing* at http://www.ipminstitute.org/ipm_bibliography.htm (accessed 11/27/07)

54. NSF International.

NSF International.

Contact: NSF International, 789 North Dixboro Road, P.O. Box 130140, Ann Arbor MI 48113-0140; 800-NSF-MARK (toll free in US); e-mail info@nsf.org

Homepage: <http://www.nsf.org/> (accessed 10/31/07)

Description: “NSF works with both regulators and companies to find risk management solutions that all parties can live with.” [Web site] Various certification programs are available including one for Organic Food administered by Quality Assurance International (QAI). Others food-related programs deal with

Bottled Water and Packaged Ice, Dietary Supplements, Food Equipment, Food Safety Services, Functional Food and Beverages, GMO Testing Program, HACCP, and Meat and Poultry Processing Equipment.

55. *Scientific Certification Systems (SCS).*

Scientific Certification Systems (SCS).

Contact: SCS, Main Office, 2200 Powell Street, Suite 725, Emeryville CA 94608; 510-452-8000.

Homepage: <http://www.scscertified.com/> (accessed 10/31/07)

Description: In addition to Organic certification, SCS programs include: Clean Food Certification; Antioxidant Rich™ Certification; Certification of Socially Responsible Practices; Pesticide Residue Free Certification; Specialized Pesticide Residue Testing Services; GAP/GMP Food Safety Audits; CertiClean® HACCP-based Food Safety Management Certification; EurepGAP, BRC, and Tesco Food Safety Certification; Fair Labor Practices and Community Benefits; Material and Recycled Content; and Biodegradability. **Information about their Draft *National Standard for Sustainable Agriculture (SCS-001)*** is at http://www.scscertified.com/foodag/sustainable/key_principles.html (assessed 10/31/07).

Selected Background Documents about U.S. Standards

Organic standards have evolved over many years, and debate continues on many key topics. This reading list is intended to provide a taste of both historical and current issues pertinent to organic standards and certification. Representative opinion pieces and research analysis are included.

56. *2002 Farm Bill: ERS Analysis: Organic Agriculture Provisions.*

67. ***Federal Regulation of Organic Food: A Research Guide for Legal Practitioners and Food Industry Professionals***, by Stephanie Jillian.
National Agricultural Law Center, 2006. *Note:* “An Agricultural Law Research Publication.”
Full text: <http://www.nationalaglawcenter.org/research/#organicregulation> (accessed 10/17/07)
Description: “This guide explores methods and resources for researching the federal regulation of organic food following the passage of the Organic Foods Production Act of 1990. This guide focuses on the current state of federal law and not on the pre-1990 history of organic food regulation, or on state regulation. There are countless resources available, including government documents, online electronic

files, books, trade journals, government and non-government sponsored websites, agricultural search engines, and commercial databases. This guide examines these and other resources, providing the reader with a clear roadmap for approaching research on this topic.”

USDA, Economic Research Service (ERS), 2005. 26p. (Outlook Report, WRS0505).

Full text: <http://www.ers.usda.gov/Publications/WRS0505/> (accessed 10/20/07)

Description: Organic farmland and sales are rapidly growing worldwide, and the two largest markets are in the European Union (EU) and the United States. The two regions have adopted different policy approaches to organic agriculture. Many EU countries have “green payments” available for transitioning and continuing organic farmers, as well as a variety of other supply and demand policies aimed at promoting growth of the organic sector. The U.S. Government, in contrast, has largely taken a free-market approach to the organic sector, and policy is aimed at facilitating market development. This report compares EU and U.S. organic agriculture policy and examines the organic sectors in the two regions.

General Federal Food-related Labeling and Regulatory Programs and Information: Selected Background Resources – U.S. Food Regulation and Labeling

Any organic handling, labeling or marketing scheme must address general commodity regulations as well as those specific to organic.

115. ***Reading Rooms: National Agricultural Law Center.***

National Agricultural Law Center, University of Arkansas School of Law.

URL: <http://www.nationalaglawcenter.org/readingrooms/> (accessed 10/31/07)

Description: “Each reading room contains a comprehensive list of current electronic resources for an agricultural or food law topic. Links are provided to major statutes, regulations, case law, Federal Register Digest reports, Center-published research articles, government publications, Congressional publications, and numerous other research resources. Also contained in each room is an overview article that provides a thumbnail sketch of the history and development of that subject.” [Web site]

116. ***Commercial Transactions.***

National Agricultural Law Center, University of Arkansas School of Law (Reading Room).

URL: <http://www.nationalaglawcenter.org/readingrooms/commercial/> (accessed 11/16/07)

Description: “Modern agriculture is dominated by complex commercial transactions that are often highly regulated and involve legal issues unique to agriculture. These transactions are primarily governed by state law, which is subject to the vagaries of each state’s legislature and subsequent judicial interpretation. Agricultural transactions cover many areas of commercial law including the sale of goods, leasing, contract law, secured transactions, and commodity futures trading. In order to provide the business community with some certainty in transactions and to facilitate complex transactions that may cross state boundaries, most jurisdictions have adopted the Uniform Commercial Code (UCC), with only minor variations between different states, to govern the majority of commercial transactions.” [Web site]

117. ***Country of Origin Labeling (COOL).***

National Agricultural Law Center, University of Arkansas School of Law (Reading Room).

URL: <http://www.nationalaglawcenter.org/readingrooms/cool/> (accessed 11/16/07)

Description: “Under the Tariff Act of 1930, 19 U.S.C. §§ 1202-1681b, nearly every item imported

(Reading Rooms: National Agricultural Law Center continued)

into the United States must indicate to the ultimate purchaser its country of origin. Many imported agricultural products are either exempted from coverage of the Act or are deemed to have undergone sufficient additional manufacturing or processing so that they become products of the United States and therefore do not require labeling. The Farm Security and Rural Investment Act of 2002, Pub. L. No. 107-171 § 10816, 116 Stat. 134, 533-35, amends the Agricultural Marketing Act of 1946, 7 U.S.C. §§ 1621-1637b (amendments to be codified at 7 U.S.C. §§ 1638-1638d), to require retail level country of origin labeling (COOL) for shellfish, peanuts, fruits, vegetables, and various meats. This change will inform consumers at the final point of sale of a covered commodity's origins." [Web site]

118. Food Labeling.

National Agricultural Law Center, University of Arkansas School of Law (Reading Room).

URL: <http://www.nationalaglawcenter.org/readingrooms/foodlabeling/> (accessed 10/31/07)

Description: "Governmental intervention in food labeling typically aims at improving human health and safety, supporting domestic agricultural and food manufacturing industries, and averting international trade disputes. Pursuant to the Federal Food Drug and Cosmetic Act and its amendments, food labeling addresses nutritional information and is required for most prepared foods, such as breads, cereals, canned and frozen foods, snacks, desserts, drinks, etc., whereas nutrition labeling for raw produce (fruits and vegetables) and fish is voluntary." [Web site]

119. Marketing Orders.

National Agricultural Law Center, University of Arkansas School of Law (Reading Room).

URL: <http://www.nationalaglawcenter.org/readingrooms/marketing/> (accessed 10/31/07)

Description: "Marketing orders and agreements are legal instruments issued by the USDA Secretary that are designed to stabilize market conditions for certain agricultural commodities by regulating the handling of those commodities in interstate or foreign commerce." [Web site]

120. Perishable Agricultural Commodities Act (PACA).

National Agricultural Law Center, University of Arkansas School of Law (Reading Room).

URL: <http://www.nationalaglawcenter.org/readingrooms/perishablecommodities/> (accessed 10/31/07)

Description: "The Perishable Agricultural Commodities Act ("PACA"), 7 U.S.C. §§ 499a-499t, was enacted in 1930 to regulate the marketing of perishable agricultural commodities in interstate and foreign commerce. The primary purposes of the PACA are to prevent unfair and fraudulent conduct in the marketing and selling of perishable agricultural commodities and to facilitate the orderly flow of perishable agricultural commodities in interstate and foreign commerce. The PACA is administered and regulated by the Agricultural Marketing Service, an agency within the USDA." [Web site]

121. Production Contracts.

National Agricultural Law Center, University of Arkansas School of Law (Reading Room).

URL: <http://www.nationalaglawcenter.org/readingrooms/productioncontracts/> (accessed 10/31/07)

Description: "Agricultural production contracts are agreements between producers and contractors, typically agricultural commodity processors, that detail an arrangement for raising agricultural commodities. These contracts usually identify the production practices to be used, identify the party responsible for supplying the required resources, and specify the quantity, quality, and method of payment for the product. Farmers and ranchers utilize production contracts as a tool to manage the risks inherent in agricultural production, and agribusinesses employ production contracts to manage risk and to control expenditures. The legal implications of production contracts are unique to each jurisdiction because the law of each state governs their interpretation. In addition, variations in terms and language contained in individual production contracts make each one distinct." [Web site]

General Federal Food-related Labeling and Regulatory Programs and Information: Selected U.S. Agencies with Food Regulatory Functions

This listing is not comprehensive. Thorough research on rules relevant to specific commodity, marketing purpose, jurisdiction – city, county, state and/or country, and more, is necessary for any business plan or marketing scheme.

133. ***USDA, Agricultural Marketing Service (AMS).***

Homepage: <http://www.ams.usda.gov/> (accessed 10/24/07)

Description: "The Agricultural Marketing Service includes six commodity programs- Cotton, Dairy, Fruit and Vegetable, Livestock and Seed, Poultry, and Tobacco. The programs employ specialists who provide standardization, grading and market news services for those commodities. They enforce such Federal Laws as the Perishable Agricultural Commodities Act and the Federal Seed Act. AMS commodity programs also oversee marketing agreements and orders, administer research and promotion programs, and purchase commodities for Federal food programs." [Web site]

134. ***Services and Programs.***

URL: <http://www.ams.usda.gov/progserv.htm> (accessed 10/24/07)

Description: Includes links to all commodity programs, as well as "Market News," "Food Purchase Resources," "Grading and Certification," "Laboratory Services," "Market Facilities," "Market and Transportation Research," "Shipper and Exporter Assistance," "Importer Information," "Milk Marketing Order Reform," "Quality Standards," "Fair Trade - (PACA)," "Research and Promotion," "Marketing Orders," "Pesticide Programs," "National Organic Program," "Plant Variety Protection," "Food Quality Assurance" and "How to Buy..." Publications."

135. ***Transportation and Marketing.***

URL: <http://www.ams.usda.gov/tmd/MSB/index.htm> (accessed 10/29/07)

Description: "The following five cluster areas define our work: Farmers Markets and Direct-to-Consumer Marketing; Marketing Channel Research and Development; Marketing Information and

(USDA, Agricultural Marketing Service (AMS) continued)

Education; Postharvest and Marketing Technology; Wholesale Markets and Facility Design.” Marketing Service publications may be accessed directly at <http://www.ams.usda.gov/tmd/MSB/publications.htm> (accessed 10/29/07).

136. Country of Origin Labeling.

URL: <http://www.ams.usda.gov/cool/> (accessed 10/24/07)

Description: “On May 13, 2002, President Bush signed into law the Farm Security and Rural Investment Act of 2002, more commonly known as the 2002 Farm Bill. One of its many initiatives requires country of origin labeling for beef, lamb, pork, fish, perishable agricultural commodities and peanuts. On January 27, 2004, President Bush signed Public Law 108-199 which delays the implementation of mandatory COOL for all covered commodities except wild and farm-raised fish and shellfish until September 30, 2006. On November 10, 2005, President Bush signed Public Law 109-97, which delays the implementation for all covered commodities except wild and farm-raised and shellfish until September 30, 2008. As described in the legislation, program implementation is the responsibility of USDA’s Agricultural Marketing Service.” [Web site] Includes regulatory updates, press releases, guidelines and comments.

137. Fresh Produce Audit Verification Program.

URL: <http://www.ams.usda.gov/fv/fpbgapghp.htm> (accessed 10/24/07)

Description: “State departments of agriculture, with USDA’s assistance, are developing an audit-based program that is helping the U.S. produce industry verify voluntary adherence to the U.S. Food and Drug Administration’s *Guide to Minimize Microbial Food Safety Hazards for Fresh Fruits and Vegetables*.” [Web site] Includes information, audit sheets and a list of facilities that successfully passed verification audit.

138. Livestock and Seed Program.

URL: <http://www.ams.usda.gov/lsg/> (accessed 10/24/07)

Description: Includes links to Audit, Review, and Compliance Programs, Commodity Purchase Programs, Livestock and Grain Market News, Meat and Poultry Equipment Review Program, Meat Grading and Certification Branch and contact information for key personnel.

139. Grass Fed Marketing Claims.

URL: <http://www.ams.usda.gov/lsg/stand/grassclaim.htm> (accessed 10/24/07)

Description: On Oct. 15, 2007 the U.S. Department of Agriculture issued “a voluntary standard for grass (forage) fed marketing claims. The standard will be published as a Notice in the *Federal Register* and is titled the *U.S. Standard for Livestock and Meat Marketing Claim, Grass (Forage) Fed Claim for Ruminant Livestock and the Meat Products Derived from Such Livestock*.” [AMS News Release 178-07]

140. Naturally Raised Marketing Claims.

URL: <http://www.ams.usda.gov/lsg/stand/naturalclaim.htm> (accessed 10/24/07)

Description: “The USDA is considering the development of a voluntary standard to address production practices associated with the term “naturally raised” for livestock. Three listening sessions will be held to provide for public input on a voluntary marketing claim standard specifically for Naturally Raised Livestock.” [AMS News Release 283-06, Nov. 21, 2006] Site includes listening session transcripts and presentations, and comments received as of Jan. 2007.

141. Standardization Branch.

URL: <http://www.ams.usda.gov/lsg/lst.htm> (accessed 10/24/07)

Description: “Promulgates, and revises the official U.S. grade standards for wool, mohair, and live

(USDA, Agricultural Marketing Service (AMS) continued)

animals and carcasses from the red meat species. Standards and specifications form the basis of the Livestock and Seed Program's meat grading and certification, market news, and Federal red meat procurement programs." [Web site] Includes updated charts: *Comparison of Certified Beef Programs*; and *Comparison of Certified Pork Programs*.

142. Audit, Review and Compliance Branch, Auditing Services.

URL: <http://www.ams.usda.gov/lsg/arc/audit.htm> (accessed 10/31/07)

Description: "The Audit, Review, and Compliance (ARC) Branch provides services for the Quality System Verification Programs (QSVP). The QSVP are voluntary, user-fee, audit-based programs that are available to suppliers of agricultural products and services. The QSVP are designed to provide independent verification that special processes or marketing claims are clearly defined and verified by an independent third party." [Web site] The following programs are conducted under the QSVP: USDA Process Verified Programs; USDA Quality System Assessment Program; USDA Export Verification Program (Beef, Bovine, and Ovine); Non-Hormone Treated Cattle (NHTC) Program; Pork for the European Union (PFEU) Program; USDA ISO Guide 65 Assessment Program; USA Accredited Seed Laboratory (ASL) Program; and USDA National Organic Program.

143. Federal-State Marketing Improvement Program (FSMIP).

URL: <http://www.ams.usda.gov/tmd/fsmip.htm> (accessed 10/29/07)

Description: "The Federal-State Marketing Improvement Program (FSMIP) provides matching funds to State Departments of Agriculture and other appropriate State agencies to assist in exploring new market opportunities for U.S. food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the U.S. marketing system." [Web site]

144. USDA, Animal and Plant Health Inspection Service (APHIS).

Homepage: <http://www.aphis.usda.gov/> (accessed 10/29/07)

Description: APHIS "is a multi-faceted Agency with a broad mission area that includes protecting and promoting U.S. agricultural health, regulating genetically engineered organisms, administering the Animal Welfare Act and carrying out wildlife damage management activities." [Web site]

145. National Animal Identification System (NAIS).

URL: <http://animalid.aphis.usda.gov/nais/index.shtml> (accessed 10/29/07)

Description: "To protect the health of U.S. livestock and poultry and the economic well-being of those industries, we must be able to quickly and effectively trace an animal disease to its source... NAIS - a modern, streamlined information system - consists of three voluntary components: premises registration, animal identification, and animal tracing." [Web site]

146. USDA, Agricultural Research Service (ARS), Nutrient Data Laboratory.

URL: http://www.ars.usda.gov/main/site_main.htm?modecode=12354500 (accessed 10/29/07)

Description: "The Nutrient Data Laboratory (NDL) has the responsibility to develop USDA's National Nutrient Database for Standard Reference, the foundation of most food and nutrition databases in the US, used in food policy, research and nutrition monitoring. Our database products are available to the public and scientific community. NDL is one of seven units in the Beltsville Human Nutrition Research Center (BHNRC) of the Agricultural Research Service (ARS)." Includes Searchable USDA Nutrient Database for Standard Reference, Release 17 (2004) and *Nutritive Value of Foods* (Home and Garden Bulletin No. 72), reports by single nutrients, special interest databases including "flavonoids" and "isoflavones," classic USDA food composition publications, and a glossary.

147. ***USDA Center for Nutrition Policy and Promotion.***

Homepage: <http://www.cnpp.usda.gov/> (accessed 10/29/07)

Description: “CNPP carries out its mission to improve the health of Americans by (1) advancing and promoting food and nutrition guidance for all Americans; (2) assessing diet quality; and (3) advancing consumer, nutrition, and food economic knowledge.” [Web site] Products include “Dietary Guidelines for Americans,” “Healthy Eating Index (HEI),” “Nutrient Content of the U.S. Food Supply,” (historical data series, beginning in 1909) and “Cost of Food” plans.

148. ***USDA, Food Safety and Inspection Service (FSIS) Regulations and Policies.***

URL: http://www.fsis.usda.gov/Regulations_&_Policies/index.asp (accessed 10/29/07)

Description: “The Food Safety and Inspection Service (FSIS) is the public health agency in the U.S. Department of Agriculture responsible for ensuring that the nation’s commercial supply of meat, poultry, and egg products is safe, wholesome, and correctly labeled and packaged.” [Web site] In addition to its regulatory programs, FSIS conducts tests for chemicals - including antibiotics, sulfonamides and various other drugs, pesticides and environmental chemicals - in meat, poultry and egg products destined for human consumption. See: <http://www.fsis.usda.gov/Science/index.asp> (accessed 10/29/07).

149. ***Compliance Assistance.***

URL: http://www.fsis.usda.gov/Regulations_&_Policies/Compliance_Guides_Index/index.asp (accessed 10/29/07)

Description: Regulations and compliance assistance related to: HACCP; Humane Methods of Livestock Slaughter Act; labeling; new technologies and “Small and Very Small Outreach” (meat and poultry processing) issues. Tools include “Interactive Knowledge Exchange,” “an index to compliance guides and access to information about Federal and State Inspection Programs.

150. ***Food Labeling Fact Sheets.***

URL: http://www.fsis.usda.gov/Fact_Sheets/Food_Labeling_Fact_Sheets/index.asp (accessed 10/29/07)

Description: Information regarding meat or poultry product labeling information including dating, “fresh,” additives and flavorings, etc.

151. ***Food Standards and Labeling Policy Book.***

2005. 202p.

Full text: http://www.fsis.usda.gov/OPPDE/larc/Policies/Labeling_Policy_Book_082005.pdf (accessed 10/31/07)

Description: “The Policy Book is intended to be guidance to help manufacturers and prepare product labels that are truthful and not misleading.” [Introduction]

152. ***Meat and Poultry Labeling Terms (Glossary).***

URL: http://www.fsis.usda.gov/Fact_Sheets/Meat_&_Poultry_Labeling_Terms/index.asp (accessed 10/29/07)

153. ***Meat, Poultry and Egg Product Inspection Directory.***

2007.

Description: Clickable map provides links to the land-grant institutions and their key constituent units, most notably state Cooperative Extension Services.

Related Food Safety Resources

Concerns about food safety, in both conventional and organic agriculture, have gained urgency in recent years. A thorough knowledge of practices for the safe handling of fresh and processed foods including HACCP (Hazard Analysis and Critical Control Point), and familiarity with food safety regulations pertaining to the marketing and sale of agricultural products are essential.

178. ***The Federal Food Safety System: A Primer***, by Geoffrey S. Becker and Donna V. Porter. Congressional Research Service, 2007.

Full text as posted by the National Agricultural Law Center:

<http://www.nationalaglawcenter.org/assets/crs/RS22600.pdf> (accessed 10/30/07)

Description: “Numerous federal, state, and local agencies share responsibilities for regulating the safety of the U.S. food supply, which many experts say is among the safest in the world... This report provides a brief introduction to the system and the debate on whether reorganization is needed.” [Summary]

179. ***Food Safety.***

(Reading Room) National Agricultural Law Center, University of Arkansas School of Law.

URL: <http://www.nationalaglawcenter.org/readingrooms/foodsafety/> (accessed 10/31/07)

Description: “Regulating food safety in the United States is complex. This complexity is due largely to the historical division of food safety responsibility amongst different federal agencies and to evolving public attitudes towards the safety of food and concern about the changing nature of foodborne illnesses. Although this overview focuses on federal regulation of food safety, it is important to note that state regulatory agencies also play an important role in food safety regulation, primarily with food sanitation and safe food handling by food retailers, foodservice providers, and food-vending operations.” [Web site]

180. ***Food Safety: A Team Approach.***

U.S. Food and Drug Administration (FDA), 1998.

URL: <http://www.cfsan.fda.gov/~lrd/foodteam.html> (accessed 10/24/07)

Description: Lists individual federal agencies that provide ongoing food monitoring, their duties and how they work together.

181. ***United States Food Safety System.***

USDA; Food and Drug Administration (FDA), 2000.,

Full text: <http://www.foodsafety.gov/~fsg/fssyst2.html> (accessed 10/31/07)

182. ***FoodSafety.Gov: Gateway to Government Food Safety Information.***

Homepage: <http://www.foodsafety.gov/> (accessed 10/31/07)

Description: Information and links to government programs under National Food Safety Programs; Industry Assistance; and Government Agencies - a directory of federal, state and international agencies.

183. ***Industry Assistance.***

URL: <http://www.foodsafety.gov/~fsg/fsgind.html> (accessed 10/31/07)

Description: Covers information sources related Hazard Analysis and Critical Control Point

(HACCP); retail and food service; pesticides and other chemical contaminants; produce; eggs; food allergies; and miscellaneous topics.

184. *Food Safety Information Center (FSIC).*

USDA, National Agricultural Library (NAL).

Homepage: <http://foodsafety.nal.usda.gov/> (accessed 10/31/07)

Description: Center provides food safety information to educators, industry, researchers and the general public on a variety of food safety topics. It includes the Food Safety Research Information Office (FSRIO) that focuses on providing information and reference services to the research community: <http://fsrio.nal.usda.gov/> (accessed 10/31/07).

185. *Food Safety Briefing Room.*

USDA, Economic Research Service (ERS).

URL: <http://www.ers.usda.gov/briefing/FoodSafety/> (accessed 10/31/07)

Description: Economic issues related to food safety: “Economic Costs of Foodborne Illnesses;” “Private Market Mechanisms and Government Regulation;” “Consumer Demand and the Value of Safe Food;” “Labeling and Traceability.”

186. *Agriculture: Food Safety (EPA).*

Environmental Protection Agency (EPA).

URL: <http://www.epa.gov/agriculture/tfsy.html> (accessed 10/30/07)

Description: Site maintains “regularly updated guidance on legal requirements, sources of assistance in meeting those requirements, and information about some of the latest research and technology available to support food producers, processors, and marketers in their efforts to maintain and improve the nation’s food supply.” [Web site] Topics include: Food Bioterrorism Regulation; Pesticide Residues in Food; Strategy To Prevent Foodborne Disease.

187. *Growing Sprouts in Retail Food Establishments: CFP Issues 02-III-01 and 04-III-012.*

U.S. Food and Drug Administration (FDA), 2004.

URL: <http://www.cfsan.fda.gov/~dms/sprouret.html> (accessed 10/31/07)

188. *Guide to Minimize Microbial Food Safety Hazards for Fresh Fruits and Vegetables.*

Food and Drug Administration (FDA), 1998.

Full text: <http://www.cfsan.fda.gov/~dms/prodguid.html> (accessed 10/30/07)

Description: Covers water applications; manure and municipal biosolids; worker health and hygiene; sanitation facilities; field sanitation; packing facility sanitation; transportation and traceback procedures. An abbreviated version of this guide is available at <http://www.cfsan.fda.gov/~dms/prodglan.html> (accessed 10/30/07)

189. *State HACCP Contacts and Coordinators.*

USDA, Food Safety and Inspection Service (FSIS).

URL: http://www.fsis.usda.gov/Contact_Us/State_HACCP_Contacts_&_Coordinators/index.asp (accessed 11/27/07)

Description: “HACCP [Hazard Analysis and Critical Control Point] Contacts and Coordinators provide technical advice, assistance, resources and conduct activities to support HACCP implementation in small and very small plants. The Contact is generally the State meat and poultry program director or another representative of the State government. Coordinators are affiliated with Universities and provide additional one-on-one advice and assistance to small and very small plants. Coordinators also develop and provide training and HACCP seminars.” [Web site]

About the Alternative Farming Systems Information Center

The Alternative Farming Systems Information Center (AFSIC) specializes in locating and accessing information related to many aspects of sustainable and alternative agriculture, crops and livestock – sustainable and organic crop and livestock farming systems; renewable farm energy options; alternative marketing practices; crop and livestock diversification including aquaculture, exotic and heritage farm animals, alternative and specialty crops, new uses for traditional crops, and crops grown for industrial production; and small farm issues.

AFSIC was founded in 1985 and is an integral part of the National Agricultural Library (NAL) in Beltsville, Maryland. The Center is supported, in part, by USDA's Sustainable Agriculture Research and Education (SARE) program, and a cooperative agreement with the University of Maryland, College Park, MD. NAL is part of the U.S. Department of Agriculture (USDA) and the USDA Agricultural Research Service (ARS).

A current list of AFSIC information products and full-text publications are available electronically on the AFSIC Web site. Recent publications are also available, on request, in hard copy.
