AQUA-TOPIC

June 1995

__Aquaculture Finance, Tax, and Insurance Issues__
[Electronic Version]
Compiled by Eileen M. McVey

Information on obtaining financing and business planning for aquaculture operations is frequently requested from the Center. This AquaTopic was compiled to more comprehensively address those requests. This bibliography brings together articles on finance, tax, and insurance issues as they apply to start-up and operation of aquaculture businesses. The articles were compiled from broad searches of a substantial number of databases as well as the National Agricultural Library collection. National Agricultural Library call numbers are provided where identified. A number of the articles may be difficult to obtain, but have been included for awareness. Please download and distribute as needed.
