# About the *Quick Bibliography Series*

- [Sample Citations](#)

Bibliographies in the *Quick Bibliography Series* of the National Agricultural Library (NAL), are intended primarily for current awareness, and as the title of the series implies, are not indepth exhaustive bibliographies on any given subject. However, the citations are a substantial resource for recent investigations on a given topic. They also serve the purpose of bringing the literature of agriculture to the interested user who, in many cases, could not access it by any other means. The bibliographies are derived from computerized on-line searches of NAL's AGRICOLA data base. Timeliness of topic and evidence of extensive interest are the selection criteria.

The author/searcher determines the purpose, length, and search strategy of the *Quick Bibliography*. Information regarding these is available upon request from the author/searcher.

Copies of the bibliography may be made or used for distribution without prior approval. The inclusion or omission of a particular publication or citation may not be construed as endorsement or disapproval.

To request a print copy of a bibliography in this series, send the series title, series number and self-addressed gummed label to:
